ALL VINYL FENCES ARE NOT CREATED EQUAL!
(See back page for details.)

Dear Prospective Vinyl Fence Buyer,

Please beware of the multiple new vinyl fence products that are hitting the New England Market. Most, if not all, of these products are constructed of **inferior material**. Many come from foreign countries, and their material has not been tested – the quality is a Big Unknown.

DO NOT be fooled by a low price. Ask yourself (or, better yet, ask the potential installer):

1. Can this product stand up to New England weather, especially the winters? Has it been tested? (Or, is its quality a complete unknown?)
2. Will this product last 15, 10, or even 5 years, if its construction is inferior? (Reliable's vinyl fences last 20-30 years or more.)
3. And finally, if a fence company is pushing a never-before-tested, inferior product, will the installer be here in a year (or even in a month), in case there's a problem or issue? (Reliable has been serving New England for **over 70 years**.)

Reliable offers quality, time-tested vinyl products that have been proven to stand up to all that the Boston weather has to offer, such as:

Visit their websites! Catalyst (CatalystFence.com) Dynasty (DynastyProfiles.net)
Illusions (IllusionsFence.com) Homeland (HomelandVinyl.com)

What's more, our installers are the Best and Most Experienced in all of New England.

So don't be fooled by false promises and inferior quality.
